

Sanskar Sinha

Full Stack Developer — Scalable Systems — Real-Time Applications — Open-Source

📞 7599015656 | ✉️ sanskarsinha225@gmail.com | LinkedIn | 🌐 GitHub | 🚀 LeetCode | 🌐 Portfolio

Education

KIET Group of Institutions, Ghaziabad

2024 – 2028

Bachelor of Technology - Computer Science & Information Technology — CGPA: 8.05/10.00

- **Certification:** AWS Certified Cloud Practitioner (2026)
- **Certification:** Cisco Networking Academy — Network Technician Path

Technical Skills

Languages: JavaScript, TypeScript, C++, Python, SQL, Java

Frontend: React.js, Redux, Next.js 14, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, RESTful APIs, GraphQL, Socket.IO, WebSockets, Event-driven systems, Kafka (Basics), Redis

Database: PostgreSQL, MongoDB, Prisma ORM, DynamicDb

DevOps: Docker, AWS (EC2, RDS, S3, Certified), GitHub Actions, CI/CD (Basics), PM2

Monitoring: CloudWatch, Prometheus (Basics), Grafana (Basics)

Core Focus: Scalable backend systems, real-time applications, low-latency systems

Projects

NexusPulse - Real-Time Notification System

GitHub

Node.js, Socket.IO, WebSockets, Event-Driven Architecture

- Built scalable real-time system handling concurrent connections with event-driven architecture
- Implemented connection lifecycle management with reconnections, failure handling, and system stability tracking

VibeKit Studio - Full Stack Page Builder

GitHub

Node.js, PostgreSQL, Docker, Netlify Functions

- Developed backend system using serverless functions and PostgreSQL with secure, rate-limited APIs
- Containerized services with Docker and optimized API performance for stable handling of concurrent requests

PROJECTSPACE - Project Management Platform

GitHub

Next.js 14, TypeScript, PostgreSQL, AWS, Prisma

- Developed scalable full-stack platform with REST APIs, JWT authentication, and Prisma ORM for PostgreSQL data persistence
- Deployed on AWS EC2 and RDS with PM2; followed hypothesis-driven development defining user engagement metrics

CPBYTE Student Portal & Chatty

GitHub

React, Node.js, PostgreSQL (Portal) — MERN, Socket.IO (Chatty)

- Portal: Internal system for 300+ students with secure REST APIs, JWT authentication, and TDD practices
- Chatty: Real-time messaging with Socket.IO, active user tracking, and CI/CD deployment via GitHub Actions

Experience & Leadership

CPBYTE KIET — Team Lead

June 2025 – July 2025

Led team of 4; ensured clean architecture; reduced bugs by 40%

Ghaziabad

SWOC — Open Source Mentor

Jan 2026 – April 2026

Mentored 15+ contributors; reviewed 50+ PRs ensuring code quality

Remote

Achievements & Open Source

OpenCode'25 - National Open Source Festival (IIIT Allahabad)

2025

Rank 65 / 2000+ — Top 3.2% Nationally

- Contributed to live repositories: Issues → PRs → Reviews → Merges; competed on live leaderboard

ECWOC - Elite Coders Winter of Code & SIH 2025 - University Winner

2025

Active Contributor & Smart India Hackathon Winner

- Open-source contributions with industry-standard Git workflows; participated in Odoo, HP Power Lab

LeetCode & Postman API Challenge

2024 – Present

2 DSA problems accepted; solved 200+ DSA problems — 5th Rank Globally

- Solved 200+ DSA problems; strong in APIs and system design
